EMPLOYMENT LETTER

By this letter on our company's letterhead we confirm that Mr. Erdöl Biramen was employed by our company as a Microsoft DNA Developer between the dates of 17.1.2000 and 17.7.2000.

During this period he performed the following tasks:

- Programming various applications for the company's intranet and extranet
- Installing and administrating the web server
- Evaluating LiveVault backup software
- Programming a communication software to interface with a company for online credit inquiries

The performing of the above tasks involved the use of the following products & technologies:

- Design of hierarchical object models
- VB 6.0's Internet Transfer Control
- Development of MTS-components to be used from ASP
- Installation, configuration and administration of MS Certificate Server
- Programming of ASP-pages to support the use of certificates
- Microsoft's Remote Technologies (Remote Scripting, Remote Data Services)
- Converting some existing VB-Components to XML-Scriptlets
- Web Classes
- Writing guidelines for NT + IIS + ASP + MTS + VB + MSMQ development
- Finding and using of third party components needed for the Web development

We confirm that his experience at our company was obtained while working with peers, supervisors, or subordinates who have a four-year degree or its equivalent.

Munich, 22.08.2001
